No...002/14..K.N.L.F

Denmark, 6<sup>th</sup> January, 2014

**Mr. Ban Ki Moon, Secretary General**

The United Nations office  
Room DC1 -640 New York,  
NY 10017

Dear Mr. Secretary General:

On behalf of Khmer National Liberation Front, I have the great honor to write you. We propose that the United Nations should temporarily remove the Cambodian seat at the United Nations until such a time that Cambodia has a legitimate government. This government must be voted for by the people and in a fair and free election. This is because the armed forces of Hun Sen's regime have committed and are committing serious crimes against humanity and serious human rights violations against Cambodians during his ruling mandates.

On the 2<sup>nd</sup> and 3<sup>rd</sup> of January 2014, Hun Sen's armed forces cracked down violently and opened fire on workers who were protesting peacefully, asking that they receive a better salary. This incident caused the death of 4 people, around 50 people were injured and 13 people were arrested and imprisoned. This was a cruel action and a serious human rights violation in Cambodia.

I would like to inform you that Mr. Hun Sen is a former Khmer Rouge who was involved in killing more than 2 million Cambodian people during Pol Pot's regime. the Vietnamese occupation 1979-1989, his regime has condemned hundreds and thousands of Cambodian to death by the "plan K5". After the Paris Peace Agreement of the 23<sup>rd</sup> October 1991, Vietnamese soldiers did not withdraw completely from Cambodia as was agreed. They disguised themselves into civilians and infiltrated into the Cambodian People Party to still occupy Cambodia. Hun Sen's regime is continuing to oppress the Cambodian peoples, has violated human rights and committed many cruel crimes against humanity up to today and he will carry on doing so into the future if he is not brought to answer for these actions.

Therefore, on behalf of the Cambodian people's and Khmer National Liberation Front , I would like to appeal to you and the United Nations to take any effective actions you are able, to help with these matters in stopping these atrocities from happening and remove the Cambodian seat from the United Nations temporarily.

I pray you can see my concerns for my fellow Cambodians and their plight. I hope together we can help them to better, fairer and freer lives in the future.

Many Thanks for your kind consideration on these matters.

Sincerely yours,

**Serey Sam**

President
